taxes. It prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position that an entity takes or expects to take in a tax return. An entity may only recognize or continue to recognize tax positions that meet a "more likely than not" threshold. PCC assesses the income tax position based on management's evaluation of the facts, circumstances, and information available at the reporting date. PCC uses the prescribed "more likely than not" threshold when making their assessment. At adoption, PCC did not record any cumulative effect adjustment, and accordingly did not accrue any interest expense or penalties related to tax positions. There are currently no open Federal or State tax years under audit.
