The Society follows FASB ASC 740-10, Accounting for Uncertainty in Income
Taxes. This pronouncement seeks to reduce the diversity in practice
associated with certain aspects of measurement and recognition in
accounting for income taxes. It prescribes a recognition threshold and
measurement attribute for financial statement recognition and measurement
of a tax position that an entity takes or expects to take in a tax return.
An entity may only recognize or continue to recognize tax positions that
meet a "more likely than not" threshold. The Society assesses its income
tax positions based on management's evaluation of the facts, circumstances
and information available at the reporting date. The Society uses the
prescribed more likely than not threshold when making its assessment. For
the year ended September 30, 2023, the Society did not accrue any interest
expense or penalties related to its tax positions. Furthermore, there are
currently no open Federal or State tax years under audit.
