IMPORTANT INFORMATION

CHIP TIMING

This is a chip-timed race, NOT a gun-timed race. That means your official race time begins when you cross the timing strip at the Start Line. Don't worry about your time being affected if you're starting in the back of the pack.

PETS/STROLLERS

Please, please please...it is very important that if you have pets or strollers or anything else that might slow down other runners, be courteous and **MOVE TO THE BACK** of the pack. Pets **MUST** be on a short leash! Long leashes have tripped runners.

RACE BIB

Remember to **WEAR YOUR OWN BIB**. Have it fastened to the front of you so the chip reads clearly as you cross the finish line. It will NOT read if it is on your back. Switching race bibs could affect race results and impact age category awards.

COURSE DIRECTIONS

Don't worry about getting lost on the course, there are volunteers and signs to guide you...and keep you entertained. The race begins and ends at Bradley Park. The final stretch is down the beautiful Lake Trail.
